

## Call for Papers

**The international Conference on Learning Information Literacy across the Globe** will be held on the **10th of May 2019** at **Frankfurt Main, Germany**. The Conference is a final part of the Erasmus+ Project Information Literacy Online, a European project to improve students' competencies.

In November 2016 the EU project ILO was started with the aim to develop, evaluate and disseminate a multilingual open access online course (MOOC) designed to improve students' abilities to cope with the claims of present-day information society. In May 2019, the seven partner institutions will be able to present a MOOC on Information Literacy, covering six language and cultural areas. An integrated assessment component will enhance the autonomous learning progress.

The Conference will be a forum for the exchange of research and experience associated with Information Literacy (IL) Learning. Besides three keynotes and a panel, several tracks of paper sessions are planned. Submissions to the following topics of interest are invited:

- IL as a learning process, including assessment
- Digital learning resources for IL (e.g. MOOCs, Learning-scenarios, OERs)
- Comparative studies of courses and curricula with an IL lens
- Cultural diversity of IL
- IL in connection with other literacy concepts

Many disciplines can contribute: Library and Information Science, different Learning Sciences, or Research in Cultural Diversity.

The Proceedings of the conference will be published digitally by the 10th of June.

### Submission Guidelines

Envisaged are three session formats: Long-papers, Short-papers, Posters. The Long-paper track provides the opportunity to present state of the art research. The Short-paper and Poster tracks call for original ideas, application areas and schemes. The inclusion of results is encouraged but not required.

Submitted abstracts should not exceed 400 (Long-papers) resp. 200 (Short-papers and posters) words.

Long-paper submissions should be 10 pages in length plus additional pages for references.

Short-paper submissions should be 2 pages in length plus additional pages for references.

### **Programme Committee**

The board of reviewers includes international experts from the fields of information-science, media-pedagogy, psychologists, media-scientists, open-educational-resources, scientific libraries and intercultural studies.
